PROFILE

Full Stack Developer and AI enthusiast building scalable, production-ready web applications with React, TypeScript, Python and FastAPI. Strong foundation in data analytics and machine learning, with hands-on internship experience delivering responsive frontends, secure APIs and database-driven products.

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern — Visakhapatnam, Andhra Pradesh | July 2026 – Present
- Building responsive React applications with TypeScript and Tailwind CSS
- Developing backend APIs with Python and FastAPI
- REST API integration, authentication and database integration (PostgreSQL)
- Bug fixing, Git collaboration and production-ready development

Data Analyst Intern — Labmentix Private Limited (Remote) | Oct 2025 – Dec 2025
- Analytics with Python and Google Analytics reporting

Data Analytics & AI Intern — AICTE – Shell – Edunet Foundation (Remote) | Nov 2025
- Green Skills using AI: preprocessing, visualization, model building and evaluation

AI Developer Intern — BXM Global (Remote) | Aug 2025 – Nov 2025
- Built AI-powered applications: chatbots, predictive models and automation tools

Data Science Intern — Evoastra Ventures Pvt Ltd (Remote) | Jul 2025 – Aug 2025
- Preprocessing, analysis and predictive modeling with Python, Pandas and NumPy

Data Analytics Intern — Young Minds Technology Solutions Pvt Ltd | Jun 2025 – Aug 2025
- Data cleaning, processing and visualization using Excel, Python and SQL

FEATURED PROJECTS

SkillBridge AI — AI-Powered Full Stack Platform
- AI learning, career guidance and interview preparation platform with authentication and a responsive dashboard
- React, TypeScript, Tailwind CSS, Python, FastAPI, REST APIs, PostgreSQL
- github.com/JANGAMBALACHANDRAMOHANREDDY/SkillBridge.Ai

Analytics Sphere X — Full Stack Analytics Platform
- KPI dashboards, business insights, charts and responsive reporting with scalable architecture
- React, TypeScript, Tailwind CSS, JavaScript, Node.js, REST APIs
- github.com/balareddy12/analytics-sphere-x

TECHNICAL SKILLS

Programming: Python, JavaScript, Java, C++
Frontend: React, HTML5, CSS3, Tailwind CSS
Backend: FastAPI, REST APIs
Databases: PostgreSQL, MongoDB, MySQL
AI / Data: Machine Learning, Pandas, NumPy, Scikit-learn
Tools: Git, GitHub, VS Code, Power BI

EDUCATION

B.Tech, Computer Science & Engineering — CT University | CGPA 9.0

ACHIEVEMENTS

- 9.0 CGPA with consistent academic excellence
- 7+ professional certifications in data analytics, AI and development
- 9+ end-to-end projects published on GitHub
